PROFILE

Experienced software engineer recognized for developing efficient and scalable code, achieving top 500 rankings in programming competitions

EDUCATION

Birla Institute of Technology and Science

Pilani, India

Bachelor of Engineering in computer science

2024 – 2027

- Ranked among the top 10% of the batch for academic performance and technical proficiency.
- Completed relevant coursework in DSA, SQL, and Java, achieving top 10% grades and demonstrating strong proficiency in each subject area.

SKILLS

Technical: SQL, Python, C++, Data Structures & Algorithms, Object-Oriented Programming (OOP), NLP

Tools: Git & GitHub, Linux/Unix Basics, MySQL, MongoDB, Docker

EXPERIENCE

JPMorgan Chase & Co.

Remote

Software Engineering Virtual Experience Program (Forage)

September 2025– December 2025

- Developed backend components using REST APIs, Kafka integration, and database connectivity.
- Developed and implemented a backend system for an offline store inventory management application, streamlining operations and increasing inventory accuracy by 15%.
- Optimized the backend system to enable faster transactions, achieving a 50% improvement in processing speed.

PROJECTS

[Advance Multi Threading HTTP Server](#)

October 2025 – November 2025

- Built advanced Backend system for Offline communication
- Worked on request handling, socket programming, concurrent client handling, real-time message exchange.
- Real-time communication over local networks without internet dependency, improving connectivity and reducing communication latency.

[Movie Ticket Booking System](#)

January 2026 - February 2026

- Analyzed customer behavior and revenue trends using complex SQL queries to optimize sales and marketing.
- Improved user experience and system efficiency through optimized booking and transaction handling.

ACHIEVEMENTS

- Solved over 900 coding problems across all the platforms
- Codeforces Pupil with a maximum rating of ~1200.
- Runner-up in the Scaler AI Labs Hackathon among 2000+ participants; developed a scalable OneDrive clone

Feedback

- Hackathon teammate - Great working with him very collaborative, strong at problem-solving, communicates effectively, and always willing to learn new things
